The most annoying things

Wearing socks and stepping in water

Ah gross!

Clicking on something and an ad suddenly appearing where you clicked

Ah dammit!
AD

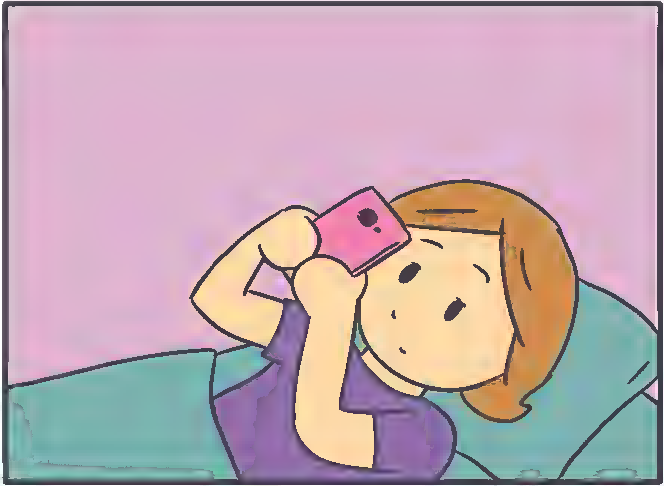
Not knowing if it's a bug crawling on you or just a piece of hair

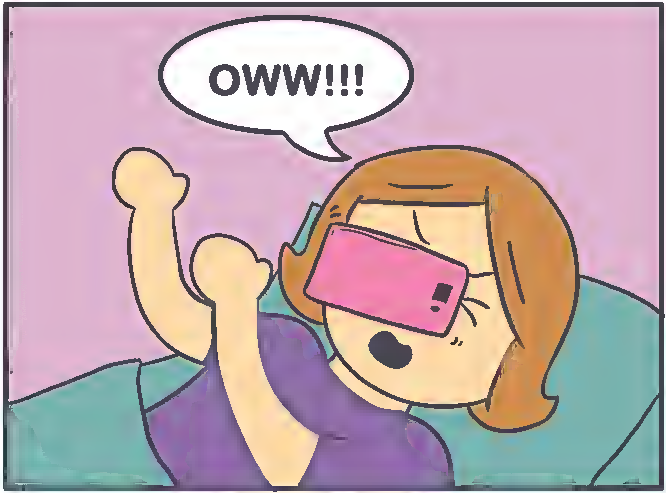
Ahhhh.....oh...

When washing your hands and your phone rings and you can't answer it because your hands are wet

AHH COME ON!!!

Looking at something on your phone and it falling on your face





OWW!!!

Trying to visit the Underworld and not knowing the answer to the gatekeeper's question

WRONG!

DAMMIT!
